*Re: Letter of Recommendation ICU Investigations*

To Whom It May Concern:

Our office has used the services of ICU Investigations since they opened their doors in Southern Utah. The Southern Utah area was in need of another process service company and ICU Investigations was very welcomed.

Our office has enjoyed the fast, prompt and effective service that we receive with ICU Investigations. All of the employees that work for ICU Investigations are friendly and knowledgeable and make our working relationship pleasant. We have appreciated the extra mile service that has been given to our office through ICU Investigations.

There has not been a situation over the years that we have used ICU Investigations where we are not received excellent service. Whether the service we requested was an expedited service, service in another state or county, or a service to a difficult party, service has been accomplished in a timely and effective manner. Our office has thoroughly appreciated the up-to-date reports and information that we can expect from ICU Investigations. In the past when our office has been called for references for service of process in our area we are proud and happy to refer them to ICU Investigations.

GALLIAN, WILCOX, WELKER & OLSON looks forward to a continued business relationship with ICU Investigations and are proud to consider them friends and business allies.

Sincerely,

GALLIAN, WILCOX, WELKER & OLSON
